1. IDENTIFICATION

GmbH &Co. KGaA

Lithium-Manganese-Dioxide-Batteries Sizes: All cells ≤ 1 g Lithium content

All batteries ≤ 2 g Lithium content

Annuavimete neveent

VARTA Consumer Batteries Alfred Krupp Str 9, 73479 Ellwangen/Germany

Phone +49 7961 / 83-0 Fax +49 800 827 8274

Emergency Telephone Number: +49 (0) 911 / 65372260

2. COMPOSITION / INFORMATION on INGREDIENTS

Substance	Approximate percent of total weight	
Later of Market	4 -	
Lithium Metal	1 - 5	
Lithium-Trifluoromethane-Sulfonate	< 1.5	
Lithium perchlorate	< 1.6	
Manganese Dioxide	13 - 75	
Dimethoxyether	1 - 10	
Graphite	1 - 5	
Stainless Steel	33 - 75	
Teflon	1 - 5	
Propylene Carbonate	2 - 9	
Plastic	< 20	
Dioxolane	1 - 9	
Lithium Hexafluoroarsenate	1 - 4	
Mercury (Hg)	< 0.0005	
Lead (Pb)	< 0.004	
Cadmium (Cd)	< 0.002	

SVHC substances according to REACH (Article 33)

Contents EC No. CAS No. Material 1,2-dimethoxyethane; ethylene glycol dimethyl ether (EGDME)

3. HAZARDS IDENTIFICATION

Note:

The batteries described in this Safety Data Sheet are sealed and are not harmful, as long as they are used in compliance with the manufacturer instructions. The content of the battery housing does not create a hazard, as long as the integrity of the battery housing is not affected by abuse (mechanicel, thermal, electrical). Fire, explosion and severe, burn hazard in such abuse conditions may occur.

Material Safety Data Sheet

Page 2 / 4

Warning:

Do not charge, short circuit, puncture, deform, disassemble, heat above 85 °C, incinerate or expose contents to water. Keep batteries away from small children. International Standard IEC 60086-4 contains more detailed information on safety of lithium batteries.

4. FIRST AID MEASURES

Contact to internal Battery content:

Skin: Immediately flush with plenty of water for at least 15 minutes.

If symptoms are present after flushing, get medical attention.

Eyes: Immediately flush with plenty of water for at least 15 minutes

and get medical attention.

▶ Respiratory Leave area immediately. With large quantities and irritation

system: of the respiratory tract get medical attention.

▶ **Ingestion:** Rinse mouth and sorrounding area with water.

Seek for immediate medical attention.

.....

5. FIRE - FIGHTING MEASURES

A. Extinguishing Media:

- ► Copious amounts of water is an effective extinguishing medium for lithium batteries, as long as batteries are not yet venting or exploding.
- Lith-X (Class D extinguishing media) is effective on fires involving only a few lithium batteries.
- Dry chemical type extinguishers have only limited extinguishing potential.

B. Fire Fighting Procedures:

- ▶ Use a positive pressure self-contained breathing apparatus if batteries are involved in a fire.
- Full protective clothing is necessary.
- During water application caution is advised as burning pieces of lithium may be ejected from the fire.

Material Safety Data Sheet

6.	ACCIDENTAL	RELEASE MEASURES	
	Seal battery air powder or Verr	ery housing is damaged, small amounts of electrolyte may leak. Tight in a plastic bag, adding some dry sand, chalk (CaCO ₃) or lime (CaO) niculite. Electrolyte traces may be wiped off dryly d paper. Rinse with water afterwards.	
7.	HANDLING AND STORAGE		
•	Do not allow terminals to short-circuit.		
		e preferably in a cool (below 30 °C), dry area that is subject to little ature change.	
		place near heating equipment, nor expose to direct sunlight for long periods. ed temperatures can result in reduced battery service life.	
8.	EXPOSURE C	ONTROLS / PERSONAL PROTECTION	
Respiratory eqipment: Hand protection:		None required under normal use conditions. Use butyl gloves	
Eye protection:		when handling leaking batteries. None required under normal use conditions. Wear safety glasses when handling leaking batteries.	
9.	PHYSICAL AN	D CHEMICAL PROPERTIES	
Geometric solid objects.			
10.	D. STABILITY AND REACTIVITY		
	May rupture violently when heated above 100 °C or when charged.		

11. TOXIOLOGICAL INFORMATION

Not applicable.

Material Safety Data Sheet

Page 4 / 4

12.	ECOLOGICAL INFORMATION		
	Not applicable.		
13.	DISPOSAL CONSIDERATIONS		
13.	DISFOSAL CONSIDERATIONS		
	In accordance with appropriate national regulations.		
14.	TRANSPORT INFORMATION		
	Lithium metal batteries that we supply to our customers are not subject to dangerous goods transport regulations due to following regulations:		
	Air transport: IATA Dangerous Goods Regulations 54th Edition Packing instruction 968 Section II.		
	Hazardous Materials Resolution issued by the U.S. Department of Transportation (DOT) and codified in Title 49 of the U.S. Code of Federal Regulations (CFR) See transport: IMDG Code 35. Amendment Special provision 188/230, packing instruction 903		
	Road and rail transport: ADR/RID 2013 special provision 188/230, packing instruction 903		
	Additional informations: Tel +49 911 65372260 for USA: Tel +18004249300		
	The requirements of the UN manual of Test and Criteria, Part III, sub-section 38.3 are fulfilled.		
	All of these batteries are packed and marked within appropriate protection for prevention of short circuits.		
	The shipping documents observe to the regulations.		
15.	REGULATORY INFORMATION		
	Not applicable.		
16.	OTHER INFORMATION		

For lithium batteries in general, Safety standard IEC 60086-4 applies. It contains detailed recommendations for manufactures of equipment and users.
